Professional Summary

With nine years of work experience in full-stack web development, throughout my career, I have successfully developed and deployed applications using C#, ASP.NET MVC, Entity Framework Core, JavaScript, CSS3, and RESTful API along with designing database table structures in SQL Server.

Professional Experience

Full-stack Web Developer   Jan 2022 – Oct 2023

Outreach Productions Inc, Hanwell NB
- Developed and maintained web applications using C#, ASP.NET MVC, Bootstrap, JavaScript, RESTful API, and MudBlazor for Front-End and Back-End development and SQL Server.
- Developed Object-Oriented codes, making programs more efficient and easier to understand.
- Conducted and validated functions while executing unit tests.
- Designed application user-friendly interface to make the user's experience easy and intuitive.
- Created and maintained Entity Framework Core (Code First) which creates databases from models and stores data in the database.
- Successfully managed multiple applications, often as a solo developer in high-pressure and fast-paced environments.

Computer Programmer   Sep 2014 - Dec 2021

Almana General Hospital, Saudi Arabia
- Developed hospital applications using C# .NET, focusing on efficiency and data integrity.
- Designed and maintained classes for Data Access Layer and Entity Manager to simplify the access of storage such as an entity relational database.
- Created database in SQL Server, stored procedures, tables and indexes to enhance data retrieval.
- Developed and maintained stored procedures (Insert, Update, Select, Delete, XML) to ensure efficient database operations.
- Created descriptive reports using Crystal Reports, offering valuable insights and data visualization.

Education

Bachelor of Science (B.S.) - Computer Science   Jun 2007 - Mar 2012
STI College

Summary of Qualifications

Object-Oriented, C#, .Net Framework, Entity Framework Core, ASP.NET MVC, MudBlazor, RESTful API, HTML5, CSS3, JavaScript, Ajax, jQuery, SQL Server, Python Django, IIS Server, React JS
